sustained. Based on that evaluation, the Corporation only recognizes the maximum benefit of each income tax postion that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax postion are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the postion. Should any such penalties and interest be incurred, they would be recognized as operating expenses. Based on the results of management's evaluation, no liability is recognized in the accompanying balance sheets for unrecognized income tax positions. Futher, no interest or penalties have been accrued or charged to expense as of July 31, 2023 or 2022 or for the years then ended. The Corporation's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns. Phoebe Putney Memorial Hospital Inc - Part V, Line 3e

Phoebe Putney Memorial Hospital (PPMH) conducted a Community Health

Needs Assessment (CHNA) in compliance with the provisions of the

Patient Protection and Affordable Care Act (ACA). That law requires all non-profit hospitals in the United States to conduct a CHNA every three years to identify health priorities and adopt an implementation strategy to meet the identified community health needs. The assessment process requires hospitals to gather and utilize input from individuals who represent a broad interest of the community served, including those with special knowledge or expertise in public health. This work resulted in identifying four priorities that were approved by the PPMH Board of Directors at their meeting on July 6th, 2022. Those priorities are:

1. Birth outcomes and reproductive responsibility

2. Cancer prevention and treatment

3. Diabetes management and prevention

4. Mental health, alcohol & drug use and violence and injury

prevention

To ensure the perspectives of community members were considered, input was collected from all Service Area counties of Phoebe Putney. Primary data used in this assessment consisted of an online community survey, focus group, and key informant interviews. The findings from this data expanded upon information gathered from the secondary data analysis to inform this Community Health Needs Assessment.

Community input was collected via an online community survey available

in English and Spanish, as well as paper copies available, from May 2022 through June 2022. The survey consisted of 56 questions related to top health needs in the community, individuals' perception of their overall health, individuals' access to healthcare services, as well as social and economic determinants of health. The survey was shared via health systems' websites, social media, email distribution, and other local community partners. Paper copies were also distributed at several community outreach events and directly to patients at Phoebe Health System via QR code or Care Coordination Team Members. A total of 428 responses were collected - the community health survey had 238 respondents from Dougherty, Lee, Worth, Terrell and Mitchell Counties.

The project team developed a focus group guide made up of a series of questions and prompts about the health and well-being of residents in the Phoebe Putney Health System Service Area. All participants volunteered.

Participants were asked to speak to barriers and assets to their health and access to healthcare. A total of 15 participants took part in the key leader focus group, which each lasted approximately 45-60 minutes.

Facilitators implemented techniques to ensure that everyone was able to participate in the discussions.

HCI consultants conducted key informant interviews to collect community input. Interviewees who were asked to participate were recognized as having expertise in public health, special knowledge of community health needs, and/ or represented the broad interest of the community served by the hospitals and health departments, and/or could speak to the needs of medically underserved or vulnerable populations. A total of 18 key informant interviews were conducted during April 2022-May

CHNA

Those priorities are:

- 3. Diabetes management and prevention

A detailed discussion of each significant health need can be found beginning on page 43 of the 2022 CHNA.

The following significant health needs, presented in alphabetical order, emerged from a review of the primary and secondary data. However, Phoebe

Putney Health System will not focus directly on these topics in their

Key themes from community input are included where relevant for each non- prioritized health need along with the secondary data score and warning indicators. Facility 1, Phoebe Putney Memorial Hospital Inc - Part V, Line 20e Written notice of the availability of financial assistance is included on hospital patient statements, and on written communications sent by contracted third party collection agencies. rural students enrolled in Georgia medical schools, it was determined that students from the 38-county region needed to become more competitive in the application process. This year, the Sim-Lab hosted 11 Pathways to Medicine Students and 15 UGA PharmD. In addition, they hosted 15 9th and 10th grade students interested in healthcare. To determine how to make the students more competitive, AHEC polled the admissions committees from each of the medical schools in Georgia to determine what, beyond MCAT scores and GPA would increase their chances of being accepted. The overwhelming consensus was a much needed and significant structured clinical shadowing and medical research experience. The Albany based Pathway to Med School Program was structured accordingly as a 4-week residential experience to include 50 hours of clinical shadowing in a primary care setting and 75 hours of community-based research to include data collection, interpretation, and presentation. Southwest Georgia is a medically underserved area (MUA) and by supporting the efforts of local aspiring medical students at the pre-med academic level, we can improve access to healthcare in our communities.

The purpose of the SERP is to provide a long-term incentive and retirement benefit for affected executives consistent with the benefit available to employees not impacted by IRS compensation limits on defined benefit plans. The amounts reported as supplemental executive retirement compensation for eligible employees in Schedule J represent credited, but not vested, benefits, and the amounts are available in future periods to the employee subject to continuing employment. PPHS maintains ownership of the funds allocated to each participant until vesting and payment. For a participant in the SERP prior to 1/1/2017 (a "grandfathered participant"), with pay credits for plan years beginning prior to 1/1/2020, the initial vesting date will occur on the date the participant attains five years of participation under the plan. After the initial vesting date, a grandfathered participant shall have a new vesting date once every 5 years. These additional vesting dates will occur on the 5th anniversary

of each vesting date after the initial vesting date. On each vesting date, a grandfathered participant will become 100% vested in an amount equal to the participant's account balance reduced by any pay credits credited to the account for the 2 most recent plan years. Grandfathered participants with pay credits for plan years beginning on or after 1/1/2020, each year's annual pay credit plus subsequent earnings and/or losses will vest after 5 years of continuous employment. Each contribution is subject to a separate and independent 5 year continuous employment requirement. For participants initially participating in the SERP after 12/31/2016 (a "contemporary participant"), each year's annual pay credit plus subsequent earnings and/or losses will 100% vest on that pay credits' 5th anniversary, provided that the participant remains in the continuous employment throughout the 5-year period for each annual pay credit. If any eligible participant attains normal retirement age prior to separation from service, they shall vest in 100% of the account balance. Once vested, each participant shall receive a distribution of their entire vested amount within a reasonable period not to exceed 2.5 months. This distribution is treated as reportable compensation to the participant and
